DIRECTIONS FOR OPERATING THE SAFETY FLAT OPENING TYPEWRITER RECORD.

SHORT PUSH ROD STYLE

Patented May 1, 1900, Aug. 10, 1910, March 5, 1912

THIS PATENT STAMP MUST NOT BE COVERED

TO UNLOCK the book, raise cover to be unlocked to a vertical position. Insert the key at lower end of cover and push it in as far as it goes; this disconnects the lock levers and ejects the locking bar, unlocking the cover so it can be lifted off the posts. It is absolutely necessary to raise the cover, which is to be unlocked, to a vertical position to release the tension of the posts which would otherwise cause the rod to bind.

TO LOCK—Adjust the cover back into position so the notches in the cover fit over the posts, then push in rod at upper end. The mechanism is adjusted so that the locking bar engages one post at a time, therefore each post can be successively adjusted if necessary. The key is not required in locking the Record.

WRITING UP—Unlock front cover of book, take out the sheets to be typewritten and return rod to former position, place written sheets in back of book in consecutive order.

Do not attempt to unlock either cover unless opposite cover is locked, as posts should always be held in one of the covers.

TO LOCK BOOK PERMANENTLY—This is only to be done when all the sheets are written up and placed in the binder, for once permanently locked, it is absolutely impossible to unlock or open it.

For this purpose two permanent locking or sealing plugs are furnished with each binder. Insert these plugs in the openings at the upper end of locking part, opposite to where key is inserted. These locking plugs, upon insertion, automatically lock themselves into position and cannot be removed. This effectually and hermetically locks and seals the book.

Mr. LaRose lived his whole life in and for the Town of Cornwall. His was a life of service for the Town such as has been given by very few of its sons. As a young man he joined the Fire Brigade ultimately becoming its Chief and he was always among the first to respond to the call of duty and to risk his life in the preservation of the property and lives of his fellow citizens.

When he was elected to the Town Council he was naturally selected as Chairman of the Fire, Light & Police Committee and ultimately attained the highest office in the gift of his fellow citizens. As Mayor, he was fair, painstaking and impartial. He lived a life of which his family may well be proud.

The Council desires to extend to his bereaved widow and children the sincere sympathy of all its members and to place on the minutes of Council this tribute showing the esteem in which he was held by the citizens of Cornwall."

He regretted the loss to the Council of Mr. Bonneville, Mr. Snetsinger, and Mr. Robertson, the latter of whom had served the Town in many capacities and had been instrumental in having industries located here. He referred to the carping critics who were ready to find fault with everything that is done and are not willing to do anything themselves to help the situation.

Mr. Robertson also spoke briefly as did
Mr. Snetsinger and Mr. Bonneville.

On motion of the Reeve and seconded by the
Deputy Reeve and supported by Council a hearty vote of
